

Mini Green Climber

Product Categories: [Remote Control Mowers](#)

Product Page: <https://www.kilworthmachinery.co.uk/product/mini-green-climber/>

Product Summary

The Green Climber range of remote controlled power units are manufactured by MDB in Italy to a very high standard and are designed for hard use in commercial applications. New models are constantly under development. Currently there are 4 models within the range from 23HP up to 56HP. The key benefit of remote controlled power units is safety of the operator. The Green Climber will traverse terrain that would be inaccessible to conventional driven machinery and should the worse happen, the operator remains safe

Product Description

The Mini Green Climber is similar in principle to the standard Green Climber but is lighter and more compact. It is powered by a 25HP twin cylinder diesel engine. The flail mower is 1.0m working width and sits between the rubber tracks to give a total width of 1500mm.
