

Ferrari 530S EasyDrive

Product Categories: [Motor Mowers](#)

Product Page: <https://www.kilworthmachinery.co.uk/product/ferrari-530s-easydrive/>

Product Summary

The 530S EasyDrive is designed for commercial use by professional users such as grounds maintenance contractors and local authorities. It can be used with front mounted attachments, for example flail mower, rotary mower, cutter bar mower and rotary brush. The EasyDrive system allows the operator to shuttle between forward and reverse by means of a thumb operated lever and without the use of the main clutch. The power drive to the mower therefore remains engaged when switching from forward to reverse.

Product Description

The 530S EasyDrive is designed for commercial use by professional users such as grounds maintenance contractors and local authorities. It can be used with front mounted attachments, for example flail mower, rotary mower, cutter bar mower and rotary brush. The EasyDrive system allows the operator to shuttle between forward and reverse by means of a thumb operated lever and without the use of the main clutch. The power drive to the mower therefore remains engaged when switching from forward to reverse.

Specification

- 3 forward and 3 reverse gears.
- Hydro-Mechanical reverser allows change of direction by operation of a single lever.
- Live Power Take Off - changing from forward to reverse does not affect the power drive to the attachment.

- Reinforced gearbox.
- Individual steering clutch/brake assemblies on each wheel. This makes the machine easy to steer even on steep ground.
- Parking brake.
- Adjustable handle bars with anti-vibration mountings.
- Standard wheels 5.00-10.
- Attachment extra.

Models

- 530S EasyDrive with Subaru EX35 Petrol Engine 12HP
- 530S EasyDrive with Yanmar LN100 diesel engine 10.5HP
