

BCS Spirit 70 All Terrain Tractor

Product Categories: [All Terrain Tractor Range](#), [Tractors](#)

Product Page: <https://www.kilworthmachinery.co.uk/product/spirit70/>

Product Summary

The Spirit is the mid range All Terrain Tractor. The Spirit series is an updated version of the standard Valiant 600 and features new stage 5 emissions engines, new cabs and a new drivers platform. The easily reversed driving position makes the Spirit series ideal for landscaping and grounds maintenance as it can be used in the conventional forward facing mode for cultivation work but then switched to reverse drive mode for mowing work. Kilworth supply several machines which can be used in the reverse drive mode including flail and rotary mowers. The modern design of the Spirit transmission and axle assembly allows a robust and powerful tractor in a compact size. The 12 forward/12 reverse gearbox features a clutchless gear change system with buttons on the gear sticks. Low centre of gravity and an extensive choice of wheels ensure good stability on steep slopes.

Product Description

The Spirit is the mid range All Terrain Tractor. The Spirit series is an updated version of the standard Valiant 600 and features new stage 5 emissions engines, new cabs and a new drivers platform. The easily reversed driving position makes the Spirit series ideal for landscaping and grounds maintenance as it can be used in the conventional forward facing mode for cultivation work but then switched to reverse drive mode for mowing work. Kilworth supply several machines which can be used in the reverse drive mode including flail and rotary mowers. The modern design of the Spirit transmission and axle assembly allows a robust and powerful tractor in a compact size. The 12 forward/12 reverse gearbox features a clutchless gear change system with buttons on the gear sticks. Low centre of gravity and an extensive choice of wheels ensure good stability on steep slopes.

The Spirit is available with or without cab and in 3 steering versions. The RS is standard axle steering, the AR is articulated steering and the DS is Dualsteer which is a combination of articulated and axle steering. The Dualsteer is extremely manoeuvrable with a steering angle up to 70 degrees. The Dualsteer system is unique to BCS.

Specification

- 12 Forward and 12 reverse gears with synchro reverser and shift buttons on the gearsticks.
- Reversible driving position
- Rear PTO 540/540E rpm independent electro hydraulic control
- Multi disc wet clutch
- Multi disc PTO clutch in oil
- Four wheel drive
- Oil immersed multidisc brakes
- Hydrostatic steering
- Adjustable steering wheel
- Hydraulic lift with twin lift cylinders and CAT 1 three point hitch
- 1900kg lift at ball ends
- 1 double acting control valve as standard
- Standard wheels 250/80-18 agricultural pattern

Optional Extras

- Wheels 11.5/80-15.3 Agricultural
- Wheels 280/70-18 Agricultural
- Wheels 320/65-18 Agricultural
- Wheels 260/70-20 Agricultural
- Wheels 31x15.50-15 XTC
- Wheels 33x12.50-15 Turf
- Cab with heat and ventilation
- Cab with heat and air con
- 3 point hitch quick couplers
- Self Cleaning Radiator system
- Wheel weights 45 kg each (Pair)
- Sump guard / bonnet protection
- Front weights 120kg
