

Ferrari 338

Product Categories: [Two Wheel Tractors](#)

Product Page: <https://www.kilworthmachinery.co.uk/product/toolbag/>

Product Summary

The Ferrari 338 has the same transmission as the 328 but has the benefit of a differential in the axle. This means that the 2 wheels are not locked together so the machine is easier to manoeuvre. Should maximum traction be required, for example when ploughing, the differential can be locked using a lever on the handlebars.

See Brochure for Further Details

Product Description

The Ferrari 338 has the same transmission as the 328 but has the benefit of a differential in the axle. This means that the 2 wheels are not locked together so the machine is easier to manoeuvre. Should maximum traction be required, for example when ploughing, the differential can be locked using a lever on the handlebars.
